Please note: Prices to be determined

GRILL FEATURES

User Interactive System: An LED system that provides outdoor cooks with further control over cooking times and the ability to track cooking fuel. This system includes Flame Time™, with a timer that will shut the grill off based on a specific time set; a Fuel Time Remaining that indicates audibly and visually when fuel is low and specifies the cooking time left with remaining fuel; and an easily programmable independent digital timer that can be used simultaneously with Flame Time™ for tracking several different dishes at once.

Electric Slow Cook Warming Drawer: Available on select freestanding models, it can be used to keep food warm until it's ready to be served or to slow cook side dishes. A stand alone built-in model is also available for outdoor use.

Even-Heat™ System: A unique grilling system promoting even and consistent heat distribution over the entire grilling surface with a combination of U-shaped 22,500 BTU stainless steel burners, W-shaped

stainless steel sear plates, and patented stainless steel grates with an enhanced design for improved heat performance.

GRILL FEATURES (CONTINUED)

Built-In Thermometer: Found on all new grill models, the exterior thermometer on the grill hood's exterior provides the grill temperature without having to open the grill hood.

Halogen Surface Lights: Interior lights on all models for easier viewing of food when cooking after dark.

Infrared Rotisserie Burners: Infrared back burners available on all grills for slow roasting. Available on both the freestanding and built-in models with either a single 15,000 BTU burner or a double 10,000 BTU burner.

Pull-Out Tank Access: For easier changing of propane tank, the pull out access is offered on all freestanding models.

Storage Drawer: Available on select freestanding models, the drawer offers a space to store utensils and other grilling gadgets.

Stainless Steel High-Output Burners: Independent 22,500 BTU main burners allow for direct and indirect cooking while a 23,000 BTU infrared sear burner allows for quickly searing food and achieving higher temperatures faster.

Side Burners: Double and single side burners come on select freestanding models and are also available as an optional built-in accessory. Built-in side burners include: a new single power burner with output ranging from 5,000 BTU to 50,000 BTU ; a single infrared 23,000 BTU sear burner; and double 18,000 BTU side burners with either side-by-side or front-to-back configurations.

GRILL CANOPY HOODS

Commercial-style canopy hoods quickly clear out smoke and odors from an outdoor entertaining area. Offered in 36- and 48-inch sizes, the hoods feature two speeds, an exhaust capacity ranging from 600 CFM to 1,200 CFM and halogen lighting.

Size/MSRP: 36-inch Grill Canopy Hood/\$1,499*; 48-inch Grill Canopy Hood/\$1,599

OUTDOOR REFRIGERATOR

Can be installed as a built-in or freestanding with castors. Constructed of weather resistant stainless steel with an all-stainless steel interior and an insulation and heater system to help maintain the interior temperature, the outdoor refrigerator offers ample space for storing grilling ingredients and other foods or beverages.

Size/MSRP: 24-inch Outdoor Refrigerator/\$2,299

BUILT-IN SLOW COOK WARMING DRAWER

The commercial-style warming drawer features a unique slow cook function.

Size/MSRP: A 24-inch model is available in a stainless steel finish with a suggested retail price of \$1,198.

BUILT-IN TRASH DRAWER

A fully extendable, easy gliding trash drawer with included trash bin helps minimize trips back and forth inside.

Size: Available in a 14-inch width.
Please note: Price to be determined

BUILT-IN UTILITY DRAWER

Offers two storage drawers for extra space to store outdoor entertaining essentials.

Size: Drawers are offered in a 14-inch width.
Please note: Price to be determined

ICE MAKER

Offered in an 18-inch model, the outdoor ice maker ensures a steady ice supply when entertaining. It produces up to 50 pounds of ice every 24 hours and features a capacity of 35 pounds.

Size/MSRP: 18-inch ice maker/\$2,399

REFRESHMENT CENTER

Available in a built-in model, the refreshment center features a sink and water faucet with AquaSense™ 500-gallon water filtration system, an insulated ice bin compartment, cutting board and towel rack. A four-section compartment next to the ice bin provides storage for bottles and garnishes.

Size: 30-inch Built-In Refreshment Center
Please note: Price to be determined

SINK & FAUCET

An outdoor sink with a top or bottom mount option and a single on/off lever faucet are available and sold separately.

Size: Sink: Faucet:
